2	5X1			
		6.	On 20 June 1952, an estimated 1,000 police, organized into five companies, were quartered in the Volkspolizei Camp in Fuenfelchen. The units occupied between 10 and 12 wooden buildings and about 15 tents. (3)	
25X1		7.	during the night on 23 Way 1952, guns of Various types were unloaded in Grossenhain and were subsequently hauled to the yard of the Volkspolized Kaserne. A wooden fence, 3 meters 25	Χź
			high, was constructed around the barracks installation. A tent, $10 \times 8 \times 4$ meters, erected in the area adjoining the installation on the east, housed	
			Volkapolized personnel. New buildings were allegedly to be constructed for the installation in that area. (4)	
25X1		8.	The Woeckern Kaserne on Georg-Schumann Strasse in Leipzig quartered an estimated 1,500 Volkspolizei personnel in mid-June 1952. A total of 22 trucks arranged for inspection were seen at the parking lot.	5X
			The Volkspolized hospital in the eastern section of the Planitz Kaserne was allegedly occupied by about 180 patients during the period of observation. (5)	
25X1	,	9.	On 25 bay 1952, the Volkspolized unit stationed at the airfield in Prenzlau was transferred to the zonal border except for a small number of cadre personnel The remaining unit which was brought up to strength with recruits by 13 June, was allegedly also to be transferred soon. (6)	
25X1		10.	In mid_June 1952, the Volkspolized unit stationed at the Prenzlau airfield had left. Elements of the unit had allegedly moved to the area of Zittau. The unit had received Soviet tanks shortly before departing. The Flieger—horst Maserne was again taken over by the Soviet Air Force. (6)	
		11.	In mid-June 1952, the Volkspolizel Kaserne in Weissenfels housed 2 x 35-mm as guns, 6 rocket launchers, 6 heavy mortars and 11 x 45-mm AT guns. (7)	
25X1		12.	On 8 June 1952. VP with about 15 tanks were engaged in a practice in the Zeitz forest. (8)	
25X1		(1)	Comments. Elements of the VPD in Hohenstuccken, namely an Infantry Kommando and the Engineer Special Abteilung, are stationed in Kirchmoeser. The total strength of the VPD is therefore believed to approximate 2,400 police	
	•		as compared with 1,800 police in March 1952. As no 122-mm guns have apparently been issued to the Volkspolizel, it appears plausible that these guns were placed at the disposal of the Volkspolizel for training by the Russians.	
		(2)	No unit of the military Volkspolized has hitherto been stationed in the meant. The personnel referred to as recruits in the present report possibly belongs to the alert police in Land Thuringia. They may receive basic training upon induction. It appears scarcely plausible that recruits of military units should be quartered and receive training separately from their troop units. The tent camp close to the Volkspolized Kaserne in Eggssin probably is for temporary quarters and was built to house the increased personnel.	

		SECRET25X1	
		23 m	
	(3)	The Volkspolized engineer battalion in Fuenfelchen which consisted of about 250 police was transferred to the area of Gransee on 14 May 1952.  The reported occupation of the installation in Fuenfelchen, the construction of additional quarters and the training with tanks of Volkspolized personnel which was apparently conducted under the supervision of Soviet personnel.	
		indicates a complete change of the previous occupation. Further information is needed to determine what type of Volkapolizei unit	
25X1	(4)	is stationed in Fuenfeichen and from where this unit came.  No guns arrived by rail in Grossenhain on 23 and 24 May. Only a shipment on 10 May	
20/1		There is no reason for believing that the unloading of this shipment should have lasted until 23 May. Therefore it is believed	25X1
25X1 25X1		an unloading in Grossenhain on 23 and 24 May of an undetermined shipment.	20,(1
25X1		the unit at that time was about 3,500 police. The actual strength is believed to approximate 2,500 police.	051/4
25X1		believed to approximate 2,500 police.	25X1
	(6)	It is doubted that elements of the VPD in Prenzlau should have moved	
		to the zonal border. It appears more likely that elements may have moved to a summer camp, possibly in the area of Zittau. The information on the arrival of recruits is correct. The evacuation of the Flieger-horst kaserne was previously reported.	
		Information on the arrival of tanks for the VPD in Prenzlau in paragraph 9 was contained in a previous report.	25X1
	(7)	The weapons observed arrived in May 1952.  It is doubted, however, that Volkspolized units should be equipped	
	(a)	with rocket launchers. It is believed that Volkspolized summer camp is located in the Zeitz forest.
